The specification is amended as follows:

"Drawings" has been changed to --Brief Description of the Drawings--

After paragraph 0013 insert --Fig 5 shows the axis of rotation of the display part--

Claim 1 is amended as follows:

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest an electric pipette having a display that is rotatable about the horizontal axis of the pipette body, and at least two parts rotatable about the vertical axis of the pipette body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
